CHEETAH

RUGGEDIZED CAMERA SERIES

C4180 CMOS 12 MP

Camera Link®

Imperx: C4180

The C4180 incorporates the On Semiconductor Python NOIP1XX012KA CMOS image sensor with a native resolution of 4096 x 3072 in a 4/3" optical format delivering up to 67 frames per second in global shutter mode with Camera Link® Deca, PoCL output. CMOS technology eliminates smear columns from areas of ultra-bright intensity and specular reflections in uncontrolled lighting applications. The Imperx Cheetah line provides excellent image quality with Imperx proprietary processing. However, Imperx puts you in control and gives you full access to raw data without corrections. By using the simple intuitive Graphical User Interface, you can quickly apply or remove image corrections. The C4180's flexibility and image quality make it suitable for a broad range of diverse and demanding applications, but "one size doesn't fit all," and Imperx can help optimize the camera to your exacting requirements.
